

Marco Antonio López Castro

FRONT END DEVELOPER

•About me

I am looking to join a company where I can apply all my knowledge and, at the same time, allow me to continue developing professionally, using different technologies and I can add value and innovation to my work. I am interested in continuing to develop professionally in a company that matches my values. and skills.

•Work Experience

• Front End Developer

Codeable.la - May 2023 - News

We develop different projects that range from web applications to an entire project with its CRUD operations, following the model, view and controller. I acquired skills with the Ruby language as well as its Ruby on Rails framework, as well as implementing functions and consuming or creating REST APIs.

• Front End Developer

NoCountry - January 2021 - December 2022

I developed an initial design in figma and then went on to develop the initial structure in html and css code, we included bootstrap for the responsive design and obtaining key resources for the interface of the social network, Database, the dom was also used so that our page works in conjunction with javascript and react.
